English Environment

英語環境

- Major school functions
- Announcements & promotions
- Signs in campus
- Letters to parents

Habit formation: extensive reading

MIE (My Interest in English)

My favourite food is Japanese food, sushi. There are many different sushi in Japan, like, tuna fish, salmon fish. They are very delicious but they are not clean because some sushi are raw food. Sushi was made in China, but China somebody spread to Japan, so the sushi became popular.

Oh! It's so lovely!

A) What are they about?

Page	Section(s)
ES2	Movie-- Magic Boy
ES3	Movie-- Beowulf
ES4	International News-- State of ex
ES5	Offbeat news-- Chesity may ce
ES9	World Factbook-- Seaside Roc
ES16	Block 17, episode 57-- Bird I

B) Answer the following questions

- 1) Who is the director-general of World H
- 2) What is idling engine? [ES5] running
- 3) What is the name of Hacken Lee's baby
- 4) What kind of movie is 'The incredible
- 5) Challenge: Try to finish ES 12
- 6) Write a short reply on small talk 'The

English

Kalbf

Name of the dish

Ingredients

10	small beef ribs
1/2 cup	sugar
1 tablespoon	garlic
2-3	spring onions
1 tablespoon	sesame seeds
4 tablespoons	soy sauce
1/2 cup	water
2 tablespoons	cooking oil

Measurements

Signal words

Imperatives
(action verbs)

Sequence of
steps

Met

- First, chop t and t
- Second, mix the sugar, soy sauce, garlic, spring onions and sesame seeds with water and cooking oil.
- Then, stir the sauce well.
- Next, marinate the beef ribs in the sauce for two to four hours. For best results, leave them overnight.
- After that, barbecue or grill the ribs.
- Finally, sever the beef ribs with rice.

Science

Title: **Comparing the densities of three liquids**

Name of the dish

Apparatus and materials

Measuring cylinder	1	Alcohol	10 cm ³
beaker	1	distilled water	10 cm ³
balance	1	saturated salt solution	10 cm ³

Measurements

**• Imperatives
(action verbs)**

Procedure:

1. Measure the mass of an empty beaker.
Mass of empty beaker (m_1) = _____ g
2. Measure 10cm³ of distilled water with a measuring cylinder.
3. Add the alcohol into the beaker, and measure the total mass of the beaker and 10
Total mass of beaker and water (m_2) = _____ g
4. Find out the mass of 10 cm³ of water and the density of water
Mass of water = $m_2 - m_1$
Density of water = mass of water / volume of water
5. Write down the results in the table.

Sequence of steps
